

# Strategic Plan 2023-26

## Vision:

**Safer care for all through high standards of conduct and competence in health and social care professionals.**

## Mission:

**To protect patients, service users and the public by improving the regulation and registration of health and social care professionals.**

1

### To protect the public by delivering highly effective oversight of regulation and registration

- To deliver our statutory duties, targeting our resources where there is greatest risk to the public.
- To support high standards in health and social care regulation and registration through our performance review, section 29 reviews, accredited registers, policy and communications functions.
- To review and improve our processes (including legislative changes where necessary) to ensure they are effective and efficient.

2

### To make regulation better and fairer

- To lead the development of more effective regulation through reviewing our standards, and undertaking other activities including research, policy advice and quality improvement initiatives, such as sharing good practice.
- To promote, influence and support regulatory reform.
- To promote and monitor equality, diversity and inclusion in our work and in those we oversee.

3

### To promote and support safer care for all

- To work with others to establish the full range of functions recommended in *Safer care for all* for Health and Social Care Safety Commissioners in each of the four countries of the UK.
- To work with UK governments to develop regulatory strategies to support the workforce strategies.
- To work with regulators, Accredited Registers and other stakeholders to: promote positive workplace cultures; resolve any conflicts between business priorities and patient safety, and between safe spaces, accountability and the duty of candour.
